

DOCKER ASSIGNMENT ::: After logging into Docker Hub, explore and customize settings of docker desktop in your virtual machine to facilitate communication between client(CLI) and server(Docker daemon) by enabling experimental features.

THIS is GUI of DOCKER ::

DOCKER FEATURES :::

FROM CLI ...

```
MINGW64:/c/Users/SUB/Desktop
SUB@DESKTOP-7HFR9BF MINGW64 ~/Desktop
$ docker images
REPOSITORY    TAG       IMAGE ID       CREATED        SIZE
wordpress     latest    2fc2a7b04129   6 weeks ago   739MB
mysql         latest    019814493c7a   8 weeks ago   632MB

SUB@DESKTOP-7HFR9BF MINGW64 ~/Desktop
$ docker ps
CONTAINER ID   IMAGE     COMMAND   CREATED   STATUS    PORTS     NAMES

SUB@DESKTOP-7HFR9BF MINGW64 ~/Desktop
